

## Computer Science Potential Program Options

June 2024

### Semester Programs

#### **Maryland-in Programs:**

*These semester programs are designed to offer either 100% resident credit or a mixture of resident and transfer credit to students, working with established partners to offer high levels of student support services, and often provide either a Maryland-faculty member or affiliated resident director.*

- [Clark-in-Madrid](#)
- Potentially [Maryland-in-Florence](#) - [ISI Florence](#) is very interested in developing CS courses

#### **UMD Exchanges:**

*Exchanges are one of the most affordable study abroad options and will allow students to take advantage of UMD partner's programs around the globe while paying the equivalent of their Maryland tuition - we often recommend these programs for in-state students.*

- Exchanges with specific CMSC exchange spots (16 spots total):
  - [Technical University of Denmark \(DTU\)](#)
    - 8 semester spots per year
    - [CS courses](#)
  - [University of Edinburgh](#) - Scotland
    - 4 semester spots per year
    - CS courses (modules) are listed under [Informatics](#)
  - [Hong Kong University of Science and Technology \(HKUST\)](#)
    - 4 semester spots per year
    - [CS courses](#)
- Other exchange partners with available spots:
  - [University of Melbourne](#) - Australia
    - Many spots (12) available
    - Direct enroll option also available for out-of-state students or those not selected for exchange spot
    - [Undergraduate CS courses \(subjects\)](#)
  - [Lund University](#) - Sweden
    - 6 spots available
    - [CS courses](#)
  - [University of Hong Kong \(HKU\)](#)
    - 9 spots available
    - [CS courses](#)
  - [Munich University of Applied Sciences \(Hochschule München\)](#) - Germany
    - Up to 4 spots available (shared with ENGR)
    - CS courses:
      - [Summer \(spring\) term](#)
      - [Winter \(fall\) term](#)

### **Affiliate/Other Approved Programs:**

*EA affiliates with numerous study abroad programs administered by schools or organizations outside of Maryland in order to give students the most flexibility in choosing a program that fits their interests and goals. Affiliate programs represent providers with whom we have formal billing and course transfer agreements. Other approved programs don't have billing or course transfer agreements with UMD, but they are reviewed to ensure that they are academically accredited and have proper student services and program support in place. Students can enroll directly at these institutions as a visiting student, or through a provider like TEAN, who provides in-country support and can also help arrange housing.*

- [IFSA Tech Career Accelerator \(Prague, Czech Republic\)](#)
- [Saint Louis University - Madrid](#)
- **Direct Enroll programs** - These are programs at exchange partner universities that allow students to study abroad by paying that institution's international student price (which is usually cheaper than UMD tuition) and without limits on the number of available spots. Usually recommended for out-of-state students so they do not have to pay the Maryland in-state tuition rate on an exchange program.
  - [University of Auckland \(New Zealand\)](#)
  - [University of Melbourne \(Australia\)](#)
  - [University of Sydney \(Australia\)](#)
  - [University College Dublin \(Ireland\)](#)

### **Summer Programs**

- [Maryland-in-Copenhagen](#)
  - [Summer 2024 CS courses](#)
- [Clark-in-Prague](#)
  - [CMSC 250 \(Discrete Mathematics\)](#)
- [University College London \(UCL\) Summer School](#)
  - [Summer 2024 Modules](#)
- [DTU Summer University](#)
  - [Summer 2024 Courses](#)
- [Yonsei International Summer School](#)
  - [Summer 2024 Courses](#)
